PETRO RAVANKAR CO

In 2020, Topaz began its operations as one of the lubricant manufacturers.

We provide optimal lubrication solutions across all industrial sectors, specializing in lubrication engineering for customized wear protection.

Our unparalleled attention to quality and detail leads to increased asset longevity – a goal achievable with regular **TOPAZ** lubrication. We blend high-quality lubricants using the finest base oils and top-tier additive systems.

Formulated and mixed by renowned petrochemists, blending specialists, and lubrication engineers from around the world.

For over 17 years, we have been active in lubricant research and development as well as their applications. Our primary aim is to ensure your equipment and machinery operate at their best and for the longest possible duration, offering optimal protection against wear. In many cases, superior performance is the result of lubrication tailored to each application — and this is what sets us apart from the competition.

We focus on personalized attention for your facility, fleet, or even unique equipment ensuring that your ultimate satisfaction is the result of our commitment.

Topaz produces the best for you.
